We are committed to hosting even more programs that are representative of our communities and support UC San Diego's Principles of Community in all our efforts.

WANT TO MEET MORE PEOPLE? COME TO PROGRAMS!

Surveys have shown that 40% of respondents have met 1-5 people through attending programs and 28% have met 6+ people. We use feedback we receive from residents to improve our programming, resulting in increased satisfaction with our programs.

** N/A refers to those who did not attend programs or were not interested in meeting new people*

PROGRAMMING COLLABORATIONS

One goal is to help residents navigate the many campus resources that are available to them and build stronger campus connection. Therefore, we have collaborated with many partners on programs and invited some to join our events and share information with our residents.
