Introduction

Trusted Authentication allows users to sign on to SpectrumU through UCSD's Single Sign-On (SSO) portal using their UCSD Active Directory credentials (which are the same as you would use to check your email).

This document outlines the sign on steps for,

- 1) Roku
- 2) Web Browsers
- 3) Mobile Devices (iOS and Android)
- 4) Kindle Fire Tablet
- 5) Apple TV

The advantages to using Trusted Authentication are that favorites, viewing history and settings are shared between devices and it enables SpectrumU to be viewed when the user is not using a Graduate Family Housing Resident network. However, when not using the Graduate Family Housing Resident network, certain channels will be unavailable.

Please see the SpectrumU channel lineup section at the end of this document for a full channel listing and which channels would not be available when not using a Graduate Family Housing Resident network.

Roku

- 1) Go to the Roku Channel Store and download the SpectrumU app.
- 2) When the app is launched, it should display the SpectrumU Let's Get Started activation screen.

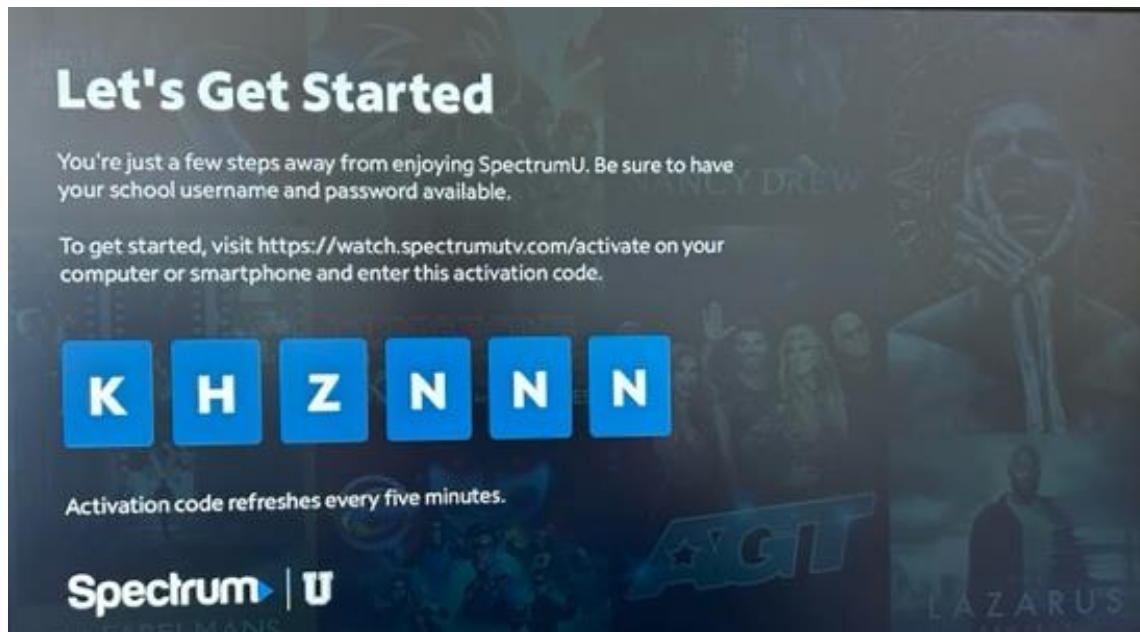

Figure 1 SpectrumU Activation Screen

If you are prompted for a User ID when the app is launched, please check to make sure you have downloaded the SpectrumU and not the Spectrum TV app.

- 1) From a computer or smartphone, visit watch.spectrumtv.com/activate, enter the activation code that's displayed on the Roku and click "Submit".

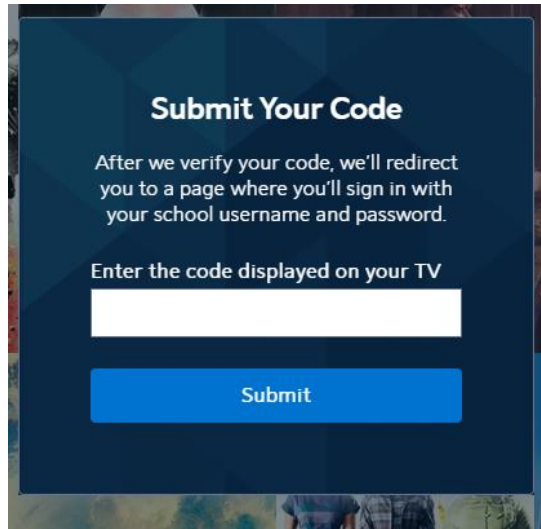

Figure 2 Submit Your Code Dialog

- 2) In the Enter your school domain dialog, enter UCSD.edu and click on "Submit".

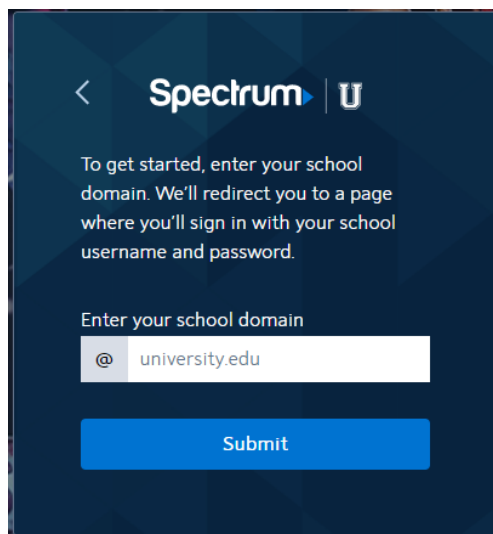

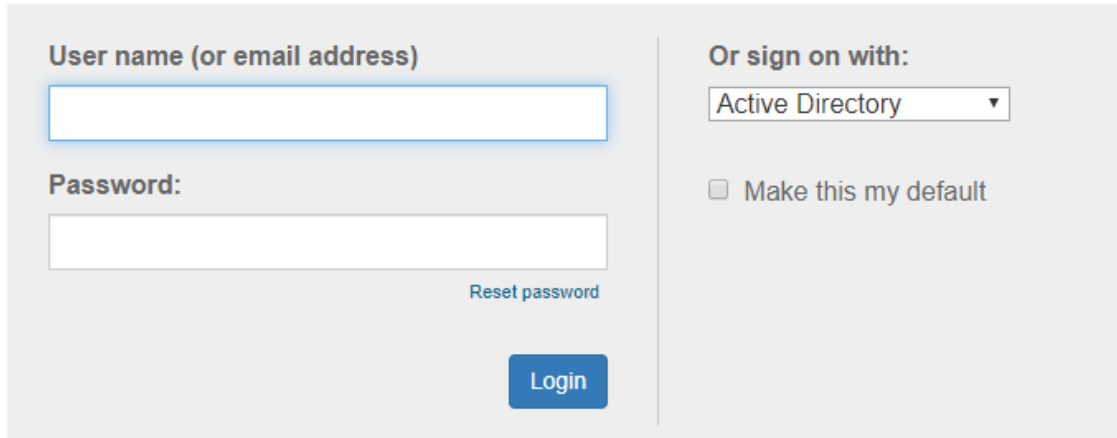

Figure 3 Enter your school domain

- 3) Once the activation code has been verified, you will be redirected to UCSD's Single Sign-On portal, enter your Active Directory username and password and select Login.

Signing on Using: Active Directory

The screenshot shows a login form for UCSD's Single Sign-On Portal. On the left, there is a text input field labeled "User name (or email address)" and a password input field labeled "Password:". Below the password field is a "Reset password" link. At the bottom center is a blue "Login" button. On the right side, there is a section titled "Or sign on with:" containing a dropdown menu currently set to "Active Directory" and a checkbox labeled "Make this my default".

Figure 4 UCSD's SSO Portal

- 4) After signing on, you will be redirected back to the activation page.

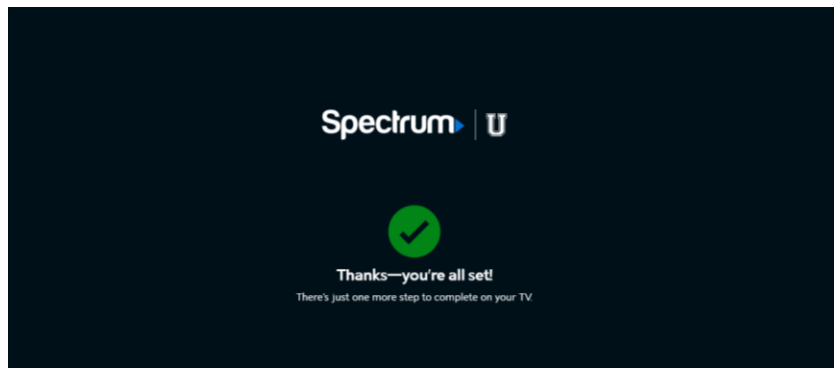

Figure 5 Page Confirming Successful Activation

- 5) After a few moments, the Roku will change from the activation screen to an End User License Agreement (EULA). This screen is only shown the first time you use the SpectrumU app.

Figure 6 EULA

- 6) After selecting Accept, the Welcome to SpectrumU screen will appear. Select Watch TV to open SpectrumU.

Figure 7 Welcome to SpectrumU Screen

After activation, the SpectrumU app will automatically authenticate the next time it's launched, so you won't need to sign-on again until the authentication token expires in sixty days.

Browsers

- 1) Navigate to SpectrumUTV.com.
- 2) In the “Enter your school domain” dialog, enter UCSD.edu and click on “Submit”.

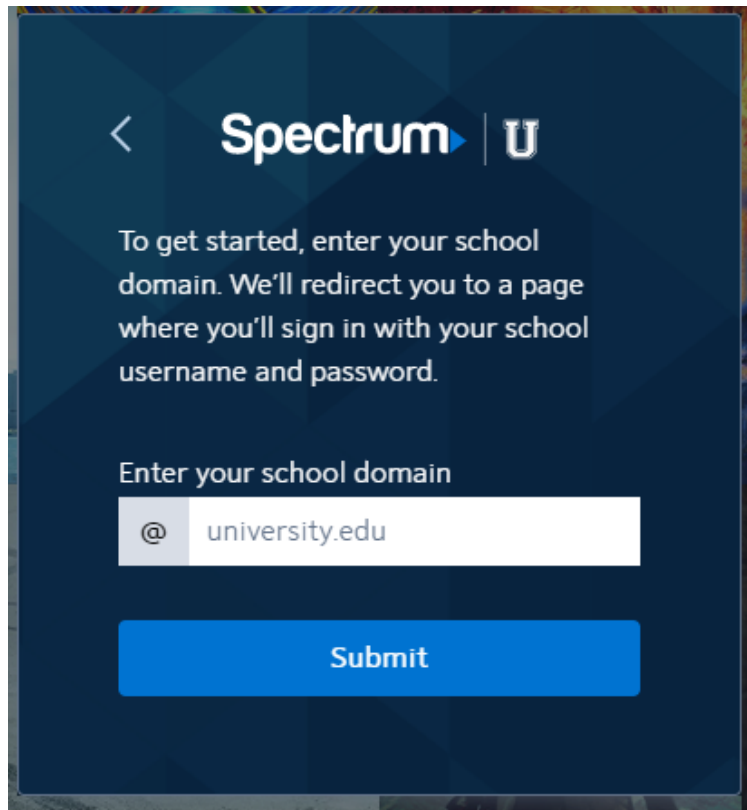

Figure 8 Enter your school domain.

- 3) After clicking “Submit” you’ll be redirected to UCSD’s Single Sign-On portal, enter your Active Directory username and password and select “Login”.

Signing on Using: Active Directory

The screenshot shows a login interface with two main sections. On the left, there is a form with two input fields: "User name (or email address)" and "Password:". Below the password field is a "Reset password" link. A blue "Login" button is positioned at the bottom right of this section. On the right side, there is a section titled "Or sign on with:" containing a dropdown menu currently set to "Active Directory" and a checkbox labeled "Make this my default".

Figure 9 UCSD’s SSO Portal

- 4) After signing on, you’ll be redirected back to SpectrumUTV.com. Select “Continue” to open SpectrumU.

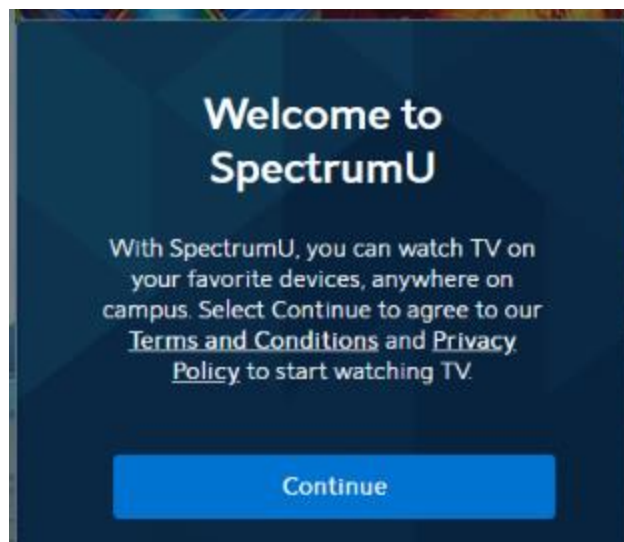

Figure 10 Welcome to SpectrumU Screen

After your first sign-on, SpectrumU will automatically authenticate on your next visit, so you won’t need to sign-on again until the authentication token expires in 14 days.

After selecting Continue, you may see a banner at the top of the browser asking you to “Connect to Campus WiFi for More”.

Connect to Campus WiFi for More

Figure 11 Connect to Campus Wi-Fi message

This message indicates you are not using a Graduate Family Housing Resident network and, due to programming restrictions, some channels will be unavailable.

The full channel lineup will be available when you are connected to a Graduate Family Housing Resident network. If it looks like you are connecting to a Graduate Family Housing Resident network and you are still experiencing this message, please contact [Spectrum Support for additional assistance](#).

Please see the SpectrumU channel lineup section at the end of this document for a full channel listing and which channels would not be available when not using a Graduate Family Housing Resident network.

Mobile (iOS and Android)

- 1) Go to the Apple App Store or Google Play Store and download the SpectrumU app. When the app is opened, it should display the “Let’s Find Your School” screen. Enter UCSD.edu and click on Submit.

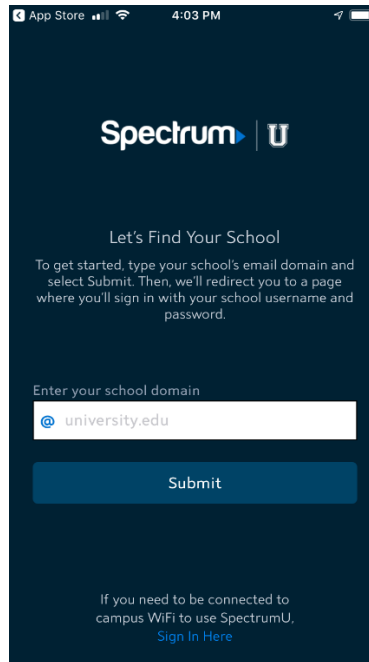

Figure 12 Let’s Find Your School dialog.

If, when the app is launched, it asks for a username and password, you may have downloaded the Spectrum TV app. Please make sure you are using the SpectrumU app.

If you had previously downloaded SpectrumU, but the app is not working, check to see if you have the most recent version. Update the app if there is a newer version available.

- 2) After clicking Submit you'll be redirected to UCSD's Single Sign-On portal, enter your Active Directory username and password and select "Login".

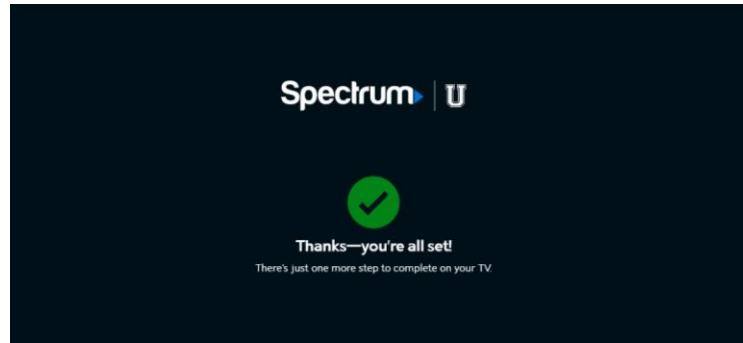

Figure 24 Page Confirming Successful Activation

- 7) After a few moments, the app will update from the activation screen and will show live TV.

Figure 25 Live TV with the mini guide

After activation, the SpectrumU app will automatically authenticate the next time it's launched, so you will not need to sign-on again until the authentication token expires in sixty days.

If you see a “Home” icon in the menu bar asking you to “Connect to Campus WiFi for More”, you are not using a Graduate Family Housing Resident network and, due to programming restrictions, some channels will be unavailable.

Figure 26 Connect to Campus Wi-Fi message

The full channel lineup will be available when you are connected to a Graduate Family Housing Resident network. If it looks like you are connecting to a Graduate Family Housing Resident network and you are still experiencing this message, please contact [Spectrum Support for additional assistance](#).

Please see the SpectrumU channel lineup section at the end of this document for a full channel listing and which channels would not be available when not using a Graduate Family Housing Resident network.

SpectrumU Channel Lineup

Below is a listing of the live TV channels and Video On Demand (VOD) networks that are available to watch using SpectrumU. The full channel lineup will be available when you are connected to a Graduate Family Housing Resident network. However, when not using a Graduate Family Housing Resident network, shaded channels will be unavailable.

Authentication Token Lengths

After you sign-on for the first time to a SpectrumU app an authentication token is issued so you will not have to sign-on again until it expires. This table lists the token lengths for the devices that are supported by SpectrumU.

Device	Token Length
Roku	60 Days
Apple TV	60 Days
iOS	14 Days
Android	14 Days
Web Browsers	14 Days
Kindle Tablets	14 Days

Information for Support

If you need to contact support to ask a question or report an issue, having the answers to the following questions will help us resolve it quickly so you can get back to enjoying SpectrumU.

1. Which operating systems are experiencing the problem? (e.g., iOS®, Android™, all)
2. What is the version of the app you are using? Have you tried updating the app?
3. Is the problem consistently reproducible? What steps did you take to replicate the problem?
4. What error messages are displayed with the issue, if any?
5. What is the public IP address the app is using? Google, “What is my IP address”. The results will be the device’s public IP address.
